HER MAJESTY'S BIRTHDAY.

The inhabitants of one sixth part of the globe celebrated yesterday the 65th anniversary of the birth of their Imperial and Royal Mistress, Victoria—the best woman, take her in any way, that has ever worn a crown. Nearly half a century has now elapsed since she assumed the sceptre of an empire compared with which the dominion of old Rome was but a province; and during that long and eventful time the love and respect of her subjects have, deservedly, grown with her years and strengthened with the growth of her vast domain. The present anniversary is saddened by Her Majesty's recent sore bereavement in the death of the Duke of Albany, her favourite son; but the lamentable event had a counterpoise in the widespread expression of loyalty and sympathy evoked by it from all parts of the Empire.

The longer the Queen lives and reigns the more convinced are her subjects of her worth, and that their traditional preference for Queens over Kings is well founded. Although "the Queen can do no wrong," she can do a deal of good, and those of us who can remember social conditions in all classes of society when Her Majesty ascended the throne can trace much of the improvement now visible to the example of the Sovereign: Therefore, the recent declaration of Her Majesty—when publicly thanking her people for their sympathy in her recent family loss—that she will remain at her royal post as long as she has strength to fulfil its duties, has been hailed with universal satisfaction.

It is our pleasing annual duty to declare that the Queen's subjects in the River Plate yield to none in any other quarter of the globe in their wishes for her long life, health and happiness. We honestly believe that this is the simple fact. Englishmen, Irishmen and Scotchmen here may have their political differences of opinion—the time has, happily, gone by for race or religion to form a bone of contention between them—but there is not a man amongst them all who is not ready to say "God save the Queen" every day of his life, knowing that, if our statesmen and Parliaments had been for the past 46 years as successful in doing their duty as the Queen has been in fulfilling hers, there would be fewer political problems yet unsolved in the United Kingdom, and its claim to boast of the best Government in the world would be juster and stronger.

All of us, therefore, join in wishing Her Majesty many more years of life, health and happiness on that throne on which she has shed more honour and lustre than any other sovereign in the long and glorious roll of British History.

"VEINTE CINCO DE MAYO."

We salute Argentines on their great national anniversary. It commemorates the transcendental event in South American history; and though 74 years have elapsed, Argentines are too young to forget the debt of gratitude which they owe to their forefathers who staked their lives and all to hand down to their descendants the precious patrimony of independence. Their titanic struggle for liberty has found its reward in the freedom of a continent and the veneration of posterity. Argentines treasure these glorious recollections of the past, and they may well be proud of the stock from which they spring. But great as the men were who fought for the independence of their own country and that of the continent, none of them cast the horoscope of the future greatness of their work. Fifteen years ago none foresaw the great development which is at present carrying the country to the pinnacle of progress; to-day even people doubt their eyes and the prosperity which dazzles them.

The men of 1810 were blind instruments of fate; one patriotic impulse set the country on fire, and the conflagration spread to the four corners of the continent. They fought for liberty and broke asunder the chains that linked them to a slavish dominion; they sacrificed everything on the altar of their country and departed leaving it in the storms of foreign and civil strife; they little thought of the bright dawn hidden by the clouds that towered over the horizon. A generation of strife and anarchy threatened destruction to the work of the heroes of 1810 and 1816; civil wars and fratricidal struggles did their worst, but the country emerged triumphant from the lengthy trial; and, indeed, whoever looks at the gloomy past and pauses to compare that harrowing picture with the bright color of the present, must acknowledge that this country has a great future in store.

Individuals sink into insignificance in the formation and development of a nation; they have no control over events; they are borne along by a current of infinite causes; some may glean from a study of the past sufficient knowledge and experience to meet the wants of the present, and turn events to account, but here the statesman's power stops and he is whirled along in the vortex. Four years ago only we all had ample opportunity to witness the impotence of man and the irresistible force that carried the nation to its present status; then the clouds looked blackest, and prospects were gloomiest, but the reaction was proportionate, and the "pampero" blast that wafted the storm away is still blowing over our heads and it will blow till another storm bursts, to resume its sweep with increased velocity until Argentines reach that stationary stage—as yet far off in these climes—which we witness in the old nations of Europe.

The present 25 of May dawns on the nation rushing ahead along its orbit of progress. Torch in hand, Civilization is advancing to the confines of Bolivia, Paraguay, Brazil and Patagonia. The horizon is cloudless and no impediments loom in the distance; steel rails and electric wires are linking all the provinces and the political organization of the nation is becoming sounder every year. Local jealousies, petty ambitions and Indian raids are vanishing as the iron horse carries progress and industry with its steam. The present picture of the country could not be more satisfactory, and harmony would be complete if Cassandras did not rise to sound a note of discord. According to these the country is going ahead too fast—the train will run off the line and a catastrophe is imminent. Logic—iron logic—is brought to bear on the merits of the question; but the progress of the Plate since 1810 has been a paradox. According to very logical deductions, the country should have been ruined in 1880, everything should have gone asunder six months ago! Happily for the country, logic is at fault in the Plate; and if the great danger of the moment is the nation's great progress, we back the country against its dangerous onward movement.

THE MENDOZA RAILWAY.

INAUGURATION TRIP.

Editors are always at home with engineers: There is something kindred in their professions; the one measures men and their affairs, the other hills and dales, mountains and valleys. As a rule, engineers are men of few prejudices, good travel; and if they lack that originality of thought which springs from the eternal mental friction of editing a daily newspaper, the intellectual deficit is more than compensated by their superior acquaintance with cold iron, screws, bolts, rails engines, etc., on which matters editors, as a rule, are notoriously at fault. Mr White, Chief of the Department of Engineers, very kindly invited me to join his party to inaugurate the first through train from Rosario to Mendoza, and we all started from the Central Station at 3.30 on Tuesday afternoon. Our party consisted of Mr White, Senator Civit, Deputies Serú and Civit, Mr F Moreno, the great Argentine explorer, Mr Charles A Catlin, an American gentleman travelling for pleasure in S. America, Senator Zapata, Deputy Albarracin, Sr Chavarria, President of Water Board, Sr. Julio Lacroze, Tramway proprietor, M Vinale, C Alzaga, R Guevara, P J Ortiz, M Basabilbaso and Sr. Martinez.

The run out from town to Campana is a twice-told tale. The country throughout the suburbs looked most beautiful, and the passenger traffic at the different stations appeared to show a great increase. As we passed the great 'talar' of Pacheco, and the splendid residence which Mr Pacheco has erected on the hill, everything had an increased melancholy owing to the sad news received by telegram of the suicide at Iquique of the brother of the owner. It was sundown when we arrived at Campana, and as there were very many passengers for the Tridente besides the members of our party, we were all busy enough before the steamer sailed in securing berths for the night. The Tridente is known to the whole travelling public of the Plate, as also her popular commander, and most attentive purser, Mr Potts. There were beds for all, and Mr Potts informed me that the steamer has ample accommodation for 150 passengers each trip, and that she is nearly always full, such is the great traffic in the rivers at present. Amongst the passengers on board we had Mr Green, of the well-known firm of Green and Johnson. Mr Green told us that it is probable all the railway materials in Rosario for the Transandine Railway will have to be brought down to the Riachuelo, some 17,000 tons, which will cost over 50,000 pats extra freight to the Company; but there seems no help for it, as 200 'peones' begin, after 25th of May, the second section of the road from Junin, and there seems no possibility of getting the stuff over the Pergamino branch of the Western Railway. Had these materials been forwarded last year to Mercedes (San Luis) the works at that end of the line would have progressed, but the railways were not equal to the trade of the country, and Mr Clark was obliged to stop the works at San Luis. Mrs Giebert, widow of Sr. Giebert, the founder of the great Liebig factory, with her son and daughter-in-law, were also amongst the passengers; they are going to the great fabrica at St. Elena, of Sr. Kemmerich. Mr. Frageuiro of Flores, (nephew of old Dr Hogan of Buenos Aires, who goes to Parana, was also passenger, and some 50 others whose names we did not know. After dinner, Mr Deputy Civit led Miss Centeno (sister of Dr Centeno) to the piano, and this accomplished young lady sang several Italian popular airs with rare grace, and then charmed us by rendering the "O patria mia" of Aida with a "maestria" and method that led us to believe that we were listening to some diva of long experience before the 'rampe.' Her execution testified to the excellence of her masters and to the perseverance of their pupil. She played and sang all the evening, and her little brother, a child of 7 years old, repeated a discourse which so charmed everyone that Mr Moreno took the little boy in his arms and carried him, amidst the cheers of the passengers, to his mamma. We never passed a more agreeable evening on board a steamer. Mr White, the "patron" of the party, sang a most amusing comic song in English which was most boisterously applauded. Mr Ortiz and Mr Albarracin sang a duo; "en fin," the concert on board held till after 11 o'clock, when we all turned in. The night was very cold, and all the blankets in the ship were called into requisition.

At day-break we reached San Nicolas where many passengers went ashore; and about 8 a.m. we passed the Alvear palace on the top of the barranca, a most baronial residence and which seems to have received some additions and improvements since we passed up with the President last November. It was 10 o'clock a.m. when we moored alongside the Rosario mole. We found the whole place in tears, all the ships' flags at half-mast, and the Maipu waiting to convey the remains of the lamented Senator Bayo to their last home.

We all breakfasted on board the Tridente; and then Mr. White took us all off to see the American barque just arrived with 12 locomotives on board for the Government railways. Mr. White had rooms at the Universelle for all the party, although we prayed hard to be allowed to put up with our countrymen at Keenan's; but it would not be allowed. We all walked arm in arm through Rosario, and the people turned out at the windows and doors to see us and took us for a lot of Argentine savants with Mr. Moreno at our head. In fact we only wanted old Mr. Sarmiento with us to complete the importance of our visit. At 7 p.m. the train starts for Mendoza, and we all dine together at 5 p.m. at the Universelle. There is certainly what the *Figaro* would call a "muy enteramente" air about most of the members of this celebrated party. We are all looked upon here as lions, driving about the town and sight-seeing, just as if every-one of us did not know Rosario off by heart. I tried to get away and call and visit a few subscribers and friends, but White and Moreno, Civit and Albarracin, keep such guard there is no getting away, even to the bank, to have a shake-hands with the manager.

It would be both premature and indiscreet to offer any opinion as to the length or finale of the trip, or the events which may happen on the road. We all know that we have to sleep two nights in the train; we all know that we are going to see the Andes, to walk over the ruins of the Argentine Pompeii and to stand on the sepulchres of 20,000 people who were buried in an instant; yet, the truth be told, all the members of our party are in the most boisterous spirits, and one would suppose that White and Moreno were going to Donnybrook Fair instead of making a pilgrimage to the graves of so many Argentines.

To catch the mail, I must close this letter, as the steamer leaves immediately for Buenos Aires. Even within the last 6 months Rosario presents many great improvements. Mr. Santamaria's mole and dock at the Gas Works, and the finished earthworks of Casado's railway, which now runs round from the station to the passengers mole, all are great works which have been completed since I was here last, so that even from the saloon of the Tridente one can see that Rosario is going ahead.

CREDIT OF CORDOBA.

The following letter of Dr. Pacheco, the talented President of the Nacional Bank, to Senator Suarez Celman, ex-Governor of Cordoba, will be read with interest. Although we object on principle to the policy of Provincial Governments applying for foreign loans, the appended statements and favorable opinions with regard to the credit of Cordoba are a moral guarantee of the ability of the province to meet its obligations and of the determination of the Cordoba Government to invest the money of the late loan in profitable public works. As will be seen by the letter underneath the Cordobese loan negotiation has been the most profitable and most successful ever made by any provincial Government, if we except that of Buenos Aires:—

Buenos Aires, May 1884.

Esteemed Sir and Friend.

I was greatly pleased to see that the Provincial Government of Cordoba had succeeded in launching its loan of three millions of dollars. The progress of this province advances steadily, and its internal financial state is in the same sound condition as that of its Foreign credit.

The Bonds sold bear 6 o/o interest and 1 per cent yearly amortization; I am aware that the price obtained is 85 at dates, which is equal to 80 o/o cash.

With the exception of Buenos Aires, no other Province has placed its loan on such advantageous terms as Cordoba, appearing as it does for the first time in the European market and effecting an operation creditable to the province, its negotiators and its cooperators.

This success can be traced to primordial causes, to the high credit which the nation enjoys, to the regular service with which it meets its debts, to the manner in which it has employed the money obtained by Loans, to the peaceful condition of the Republic and to the confidence which an honest government and progressive city inspires all of which have aided in Cordoba's development and have increased its wealth.

The credit of the nation is reflected on the provinces as the light of the sun is on the other stars in the planetary system.

Cordoba has not squandered its revenue, it has not strained its credit, and its insignificant internal debt arises from just demands on the treasury; the proceeds of same have been well employed. It has established a bank which you have greatly aided in consolidating, and has commenced public works which are an honor to its ex-Governor, Dr. Juarez Celman, and to its worthy dignitaries who still continue them.

. The above are some of the principal causes of the high credit of Cordoba and of the brilliant financial operation which has just been realised.

I firmly believe that before failing in her engagements in the service of her debt, Cordoba will go so far as to economise in her hunger and thirst, as ex-President Dr. Avellaneda said in 1877, in a very critical time for the Treasury of the country.

I have been informed that this loan will be employed in the construction of a telegraph line which will place all the towns of the province in communication with each other—to carry out some irrigation works greatly needed in an important district in the Capital of the Province—to pay off the small internal debt—and to build a railway which can be made a trunk line and extended towards the north-east.

Very well! The works upon which the money will be expended are reproductive, and are besides in many cases an economy for the Treasury. The duty of a Government is not to collect its revenue and divide it amongst its employees.

No! A Government is a social institution which must always advance, guaranteeing its subjects their rights and liberties and aiding in every way their welfare in fostering the elements which may increase their wealth.

The Governments that do nothing, that simply collect their revenue and distribute it amongst their employees, or that do not comply with their duties, are mediocre. They do not comply with the law of their Institution.

I have not the fears of some who believe a nation or a province is on the road to ruin when its debt increases.

We have just made a start, and the present flourishing state of the Republic is only the first letter in that magic word—Progress. We owe more than before but we now reckon on greater wealth, a larger revenue, a larger population.

If the money is well employed, if it is invested in reproductive works, if we preserve peace we need have no fears.

For many years yet to come the country must negotiate foreign loans for its public works and the development of its natural riches.

An immense country, with provinces as large as European Kingdoms, containing untold wealth and needing but capital to turn it to account will oblige us for many years yet to come to seek for capital abroad, if we would not stop the locomotive of progress which is at present running at a surprising speed.

A few years ago we had nothing; the railways that now extended from one extremity to the other of the Republic, the telegraph lines which place all our towns in communication, the industries which astonish us, the great value of our land and our flourishing banking institutions, are all due to the money obtained by the launching of loans in Europe.

In a very short time we will have other public works, such as building bridges, canalizing our rivers, etc.. and these works cannot be carried out without foreign capital. Why should this frighten you?

You, Doctor, have established in Cordoba a progressive Government; you commenced important works and founded a solid administration.

The present operation, on which allow me to congratulate you and the men who assisted you, is a consequence of this administration and of the confidence which the country has inspired.

Allow me to subscribe myself,

Your friend and servant,

*W. Pacheco.*

## The Patagonia's Mails

London, April 26.

In the House of Lords yesterday Earl Granville, in reply to the Earl of Donoughmore, said he had nothing to add to what he had already stated or what had been said by the Premier in the other House with respect to the position of General Gordon, whose brother, Sir Henry Gordon has assured him that the General was in no military danger at Khartoum.

In the House of Commons Lord R. Churchill gave notice to move the rejection of the Government measure which proposed to deal with the gold coinage. Mr. Dodson gave notice of the terms of an amendment to Clause 1 of the Cattle Diseases Bill as a result of the division on Tuesday, and which he proposed to move at a morning sitting on Tuesday next. The Attorney-General moved the second reading of the Municipal Elections (Corrupt and Illegal Practices) Bill, with the object of referring it to a Grand Committee. The measure was talked out by Mr. Warton. In the evening Mr. Hubbard called attention to the composition of the public revenue, which elicited a speech from Mr. Gladstone on the incidence of the Income-tax, and Captain Price to the form of government in Jamaica.

Our Cairo Correspondent telegraphs that he has received a telegram from Berber, dated yesterday, which shows that the reported massacre at Shendy has been exaggerated. There was some slight loss among the refugees and soldiers, but not to the extent telegraphed to some of the London papers.

Our Correspondent adds that repeated efforts had been made to send a message to Gordon, but that only one answer has been received within the last five days, stating that Khartoum is secure.

Our Correspondent at Souakim, telegraphing last night, says that an uneasy feeling prevails there, Osman Digna being at Handuk. H.M.S. Ranger and Briton are prepared to repulse any attack.

Our Special Correspondent at Darmstadt telegrahs that the Crown Princess of Germany with her two eldest daughters would arrive there last night, the Crown Prince and Prince Henry, who had remained at Eisenach for some shooting, reaching there on Tuesday.

The health of the Queen, says our Correspondent, continues satisfactory. Great precautions are taken to secure her Majesty's safety. Inspector Fraser, of the Royal Household Police, has had several German detectives placed under his orders.

Our Berlin Correspondent informs us that Prince Bismark has not appeared in the Reichstag for several days, being confined to his room by a severe cold.

Lord Salisbury and Sir Stafford Northcote have replied to resolutions passed by the Edinburgh Northern District Conservative Association. Lord Salisbury says he is entirely of the opinion that the importance of an appeal to the constituencies is becoming urgent. The Government have lost the authority either for the conduct of the foreign affairs of the country or for the ordinary conduct of business in the House of Commons. Sir Stafford Northcote says he entirely agrees that the country ought to have an early opportunity of pronouncing a verdict upon the policy of the present Government.

Dr. Stubbs was yesterday consecrated Bishop of Chester in York Minster. The officiating prelates were the Archbishop of the province, and the Bishops of Durham and Manchester.

The American Minister last evening presided at the usual monthly meeting of the Browning Society held at the Botany Theatre, University College, when a paper upon "Caliban upon Setebos," by Mr. J. Cotter Morison, was read.

Amongst the deputations which yesterday waited upon the Metropolitan Board of Works was one from the Parks Railway Opposition Association, urging the Board to oppose the projected construction of railway under the public parks. The subject was referred to the Parliamentary Committee.

The Lord Mayor yesterday announced that he would have very great pleasure in forming a Mansion House Relief Committee, and in receiving any sums which the benevolent public might forward for the alleviation of the distress of those who have suffered by the earthquake in Essex.

Yesterday a new Society for the Study and Cure of Inebriety, held its first meeting, which was preceded by a luncheon in the large room of the Medical Society of London, in Chandos-street, Cavendish square. At the luncheon speeches were delivered by the Earl of Shaftesbury, Sir Lyon Playfair, M.P., Dr. Alfred Carpenter, Canon Ellison, and others; and afterwards Dr. Norman Kerr, delivered an inaugural address.

Mr. E. Gurney's Bendict won the Selling Hurdle Race at the Sandown Park Club Second Spring Meeting, and amongst the other results of the running were the following:—Southern Hunter's Flat Race, Mr. C. Snewing's c by Outfit; Free Welter Handicap, Mr. W. Moon's Penton; Walton Two-year-Old Plate, Lord Downe's c by Kisber; Claygate Stakes, Mr. T. Steven's Scottish Earl; Great Sandown Hurdle Race, Sir W. Trockmorton's Phantom.

The National Weekly Life Assurance Company, whose Office was 14, St. John-street, Manchester, and which had agents and collectors in many other towns, has closed its doors, and yesterday the managing director, Mr. W. Gilleland, was adjudicated a Bankrupt, with liabilities estimated at 30,000l.

The Budget proposals caused a remarkable rise yesterday on the Stock Exchange in prices of home and Indian Government and other investment stocks. Consols however, declined to 101 15-16, 102 1-16 for money, and to 102 1 16, 3-16 for the account; and Reduced 3 p.c. to 101, ⅛. The rise in British New 2½ p.c. was 1⅜ p.c., 9 2⅜, ⅝. The approach of the account influenced the home railway market unfavourably, and prices fell ¼ to 1 p.c. American stocks again receded ½ to 2½ dollars. Suez Canal shares rose ⅞, and foreign Government issues from ¼ to 1 p.c. 10,000l. in Dutch coin was taken from the Bank.

THE FAR SOUTH.

("A WARNING FOR *Roaming Correspondents* AND EDITORS.")

(*Concluded.*)

In Gaiman I was present at a public meeting, in which an almost unanimous opinion was expressed that any change must be for the better; and on more than one occasion I was requested to take the leadership of parties that proposed to march for the Manzanas, since they could find no prospects in Chubut. Granting that these are in the minority, and a small minority to boot, is that just cause that they should be roughly bidden to hold their peace, that their complaints are all nonsense, since others are doing well and living comfortably?

I have never contemplated, and should be the last to suggest, a wholesale and compulsory removal of the colony. What I do ask is, that facilities be given to all who are desirous of moving. No one can be more aware of or hold a greater admiration for the persevering pluck, patience, and other sterling qualities of the Welsh colonists than myself, and my sorrow is, therefore, the greater to see them wasted in Chubut, when so many and more fertile fields lie close at hand.

In conclusion, Sir, I have touched on a serious question, and I do so with the greatest reluctance, seeing that it partakes of politics, of which, as you well know, I have a wholesome abhorrence; but the taunts, jibes, charges and inuendoes which your "O.C." levels with such prodigal profusion and little justice, as I opine, against the Government cannot be passed over with the silent contempt they deserve, lest they be taken to represent a prevalent feelings of the Chubut colonists. The nature of these is apparent from such a statement as the Department may proceed with the "proyecto and presupuesto" and appropriate the works done as "unauthorized." Their source is explained in the sentence, "people who hope soon to have something to say in their own local affairs, instead of the usual camp domineering."

For some time past a small clique in Chubut has been agitating for a Municipality, which, up to date, Government has seen no reason to grant. Conversing one day in Rawson on this topic, and also anent the idea that Government was inclined to look on the colony as discontented, and, therefore, worthy of little assistance, a gentleman, as well known as he is widely respected, a substantial man, owner of land and animals, and various interests, made this remark—"There is no more loyal set of people in the country than the Welsh colony of Chubut, but there are interested parties amongst us who purposely prevent the people and Government from a clear understanding. Those who are so anxious for the Municipality are one or two who intend to get themselves elected Municipales." And amongst the mass of the people I cannot say that I found this by any means a burning question. Everyone remembers how Jupiter answered the petition of the frogs when they prayed for a king, and how, under the rule of the mighty Monarch, Stork, they vainly repined for the halcyon days of long-suffering Log. Be it borne in mind that at present Government defrays all the expenses of the Comisaria, wheras in the event of a Municipality that body would have to raise a revenue to defray the costs of its administration. These funds, it is evident, would have to come directly out of the colonists' pockets, already depleted by three successive bad years.

"A."

P.S. On my way down yesterday I weighed three potatoes in Guardia Pringles—weight, 5½lb. Crop estimated at 800 arrobas, in a trifling square of ground. At the Alamo three potatoes weighed 4¾ lbs; the owner has some 500 arobas for sale, after putting aside for family consumption. A little further down three potatoes weighed 7 lbs. 3 oz. crop, about 350 arobas. Selling price, 10 dols per ar. Are these "fisty and mealy?"

THE DYNAMITE PLOTS.

Paris, April 17th.

I have to-day seen several of the advanced Irish Nationalists in Paris concerning the manner in which the dynamite recently used in London was procured. According to their testimony the intelligence I sent you last night on good authority is substantially correct. My Irish informants say that the only modification my statement requires is that the agent, who is still furnishing the dynamiters with their materials, does not live in the Avenue de l'Opéra. It appears, however, that some time ago an Englishman who came over to France with the object of establishing an agency for explosives was stopping in the Avenue de l'Opéra, and that he was applied to by one of Ford's agents. This man pretended that he was an engineer, and required a large quantity of dynamite for blowing up the foundations of a bridge, and offered to fill up the necessary declaration for the purchase. It seems, however, that the Englishman's suspicions were aroused, as I am informed he refused to entertain the proposal. The English police were, moreover, informed of the application which had been made. I have to-night received a letter from an Irishman who has never concealed from me that he sympathises with the dynamite groups. Subjoined is the portion of his letter that is interesting to Englishmen:—

"The dynamite campaign is not at an end. On the contrary, upwards of two hundred and fifty pounds of that explosive have been sent from France to England during the past three weeks. A young Cork girl, the sister of one of the Irish dynamiters of Paris, has been the active agent in the dangerous work. She is also the medium of communication between the Revolutionists here and those in Great Britain and Ireland. She is not, however, identical with the woman who took the 'stuff' from France which was used at the Victoria Station. That person immediately after the affair passed quietly through Paris and went over to America. A portion of the dynamite now being transferred to England is purchased at authorised manufactories through an agent; the rest is manufactured clandestinely. Some of the cakes manufactured have been sent to Professor Mezeroff for his opinion, but its quality is believed to be first-rate. It appears the dynamiters in England are opposed to isolated attempts, and contemplate a general explosion in various parts of the country at a certain hour on a certain day."

The same letter gives some very interesting facts concerning the amount of money subscribed to the Dynamite Fund, and the manner in which it has been employad. Rossa's Resources of Civilization Fund now amounts to ten thousand dollars; Patrick Ford's Fund to something like eight thousand dollars; exclusive of forty thousand dollars the surplus of the O'Donnel Fund, the greatest portion of which is to be devotod to dynamite purposes. There are other items and resources mentioned in the letter, which together amount to about twenty-five thousand dlolars, the whole amount being eighty-three thousand dollars. He says that he has the figures from a source that is likely to be very correctly informed, but of course I cannot say whether they are exaggerated or not. It, however, strikes me that in comparison with the amount subscribed the results have been happily small. With regard to the money spent in the various attempts that have been made and for the defence of Prisoners that have been arrested, the total is put down as only twenty thousand dollars, which sum also includes "rent of dynamite factory established in France, payment of *employes* and incidental expenses connected therewith, four thousand five hundred dollars." Without denying that the dynamiters may do a great deal of mischief, and may be the cause of many people losing their lives, the disproportion between the money subscribed and the money spent would lead to the supposition that the leaders were pocketing large sums, and were from time to time arranging fresh outrages, more with a view to enrich themselves by inducing credulous subscribers to send them more hard cash than with the intention of employing the funds for the diabolical purposes the profess to want them for.

EDITOR'S TABLE.

The Clerk of the weather is generally friendly to Argentines, and he looked yesterday as if he intended to smile on to-day's Fetes. In spite of all the rumours of a new programme for the great day, we believe that the only novel feature will be Mr. Cassels's Electric Moon, or rather half a dozen moons. There will also be more troops and marines on the ground than in former years. With these exceptions, everything will be as it has always been and is likely to be till our excellent Lord Mayor has time to give the matter his attention, and reform the whole business.

In spite of the recent decree, we saw lots of Argentine flags "con sol" flying from private houses yesterday, and foreign flags were to be seen on all sides, although the decree only allows them on Legations and Consulates. This is the way in which too many decrees are treated in these easy-going latitudes; but, fortunately, like the new dress regulations for the Argentine D.C, the question is by no means a vital one for the country's welfare.

The National Deputies voted on Friday, without debate or a dissentient voice, the pension proposed by Government for Dr Alberdi—$ 400 per month. In this case Congress has acted on the good old axiom of "he gives twice who gives quickly."

We desire to call the attention of our readers to the advertisement by the "Royal Association for the Promotion of the Fine Arts in Scotland." Those who desire to encourage Art cannot do better than subscribe to this association, which has already spent more than £200,000 in the furtherance of its object. Members have the chance of gaining at the annual meeting in July the choicest paintings that have been on view in the Exhibition of the Royal Scottish Academy during their year of subscription. They are also entitled to the presentation work for that year, or any other of the publications of the Association they may choose. The Association are issuing this year a volume of sixteen engravings illustrative of the Tweed, by Geo. Reid, R.S.A., and dedicated to Her Majesty the Queen. They defray the carriage of all works of art gained by members here to Buenos Ayres. We understand from Mr. Connecher that Valparaiso has more than 100 members, and we think that Buenos Ayres should not be behind that town in its love for art.

We were a little premature the other day, thanks to an incorrect telegram from Montevideo, in announcing the arrival there of Her Majesty's new Minister to that republic. He only arrived yesterday in the R. M. S. Tamar, now in quarantine at Flores Island. We again welcome him to the Plate.

The new saloons in the Government Palace, with their gorgeous new furniture in Genoa velvet, will be thrown open to-day for the first time. Those gentlemen who have cards for the Palace should bear in mind that swallow-tails, white chokers, and ditto kids are "de rigeur." The Lord Chamberlain (Colonel Campo) has not issued special regulations for ladies dress although morning dress for one sex and evening "fig" for the other is not harmonious in effect.

The new city of La Plata goes in to-day for a Te Deum and fireworks on the most patriotic scale, but it is more than probable that all who can will come to Buenos Aires to celebrate the great day, and the Ensenada Railway may count on good receipts.

Ladies and Gentlemen, don't forget that you have a chance of making a rapid fortune to-morrow by taking a ticket in the Capital Lottery, big prize 50,000 Nats. How would you feel if you won it, "integro"?

We publish in another part of the paper the programme of the Races that have been organised for the 24th of next month and to be held on the Lanus Race-course. The sporting world must feel grateful to the promoters of this extra meeting, which will make an agreeable break in the dull racing season. Besides the events announced in the programme, it is likely that there will be two very interesting private matches for very respectable amounts.

The remains of the late Mrs. Eastman will be conveyed to the Northern Cemetery to-morrow 26th inst. at 10 a.m. from Calle General Lavalle No. 54. Friends are requested to attend.

We call the attention of Barracas residents to the announcement that evening prayer is held at the Institute to-day at 5 p.m.

Mr. Callan, M.P., arrived at the Provence Hotel yesterday morning from Rosario. We had the pleasure of a visit from him in the afternoon, and were glad to find him—though still walking lame—almost restored from his accident in the Chaco. He was charmed with the fertility of the soil, and says it is the finest he has as yet seen in the Republic. Mr. Callan will sail for England in the next Pacific steamer. It is probable that Lord Dormer will sail in the same steamer.

Madlle. Theodorini was sick yesterday with measles, and Aida could not be performed at the Colon. The time-honoured Trovatore was given instead.

Good news for ocean travellers. Quarantine on vessels from Brazil was reduced from three to one day.

President Roca, we are glad to say, has recovered from his recent illness. His Excellency was at the Government House yesterday.

A grand day performance is given to-day at the Politeama.

The Union Telefonica suspends its services to-day, after 6 p.m., to allow of some necessary work being done. To-morrow morning everything will be ready for the usual talking.

General Sarmiento arrived this morning at the Central Station, on his return from his successful mission to Chile. A large crowd of friends, including several ladies, had assembled on the platform to welcome back the veteran statesman. He looks in splendid trim, and the many ovations he received in his native province, San Juan, and Mendoza, seem to have given him new life and vigour. The vice-pres. of the Society for the Protection of Animals, of which Gen. Sarmiento is President, was one of the large and distinguished crowd that awaited him on the platform, and escorted the General in his own carriage to his house in Calle Cuyo.

"Look here on this picture, and on this." The *Diario* published yesterday a neat plan of Buenos Aires in 1758, when our great, great grandfathers were young and gay. It looks like Chascomus twenty years ago, only not half so important. In 1958 B. Aires will be one of the emporiums of the globe, with 1½ million inhabitants.

Dear Sirs,

I have much pleasure in stating that I cured all my flocks this season with the "Golden Leaf Extract" and found the result highly satisfactory, and in future do not intend to use any other dip.

After first using the "Golden Leaf," I found it such a perfect cure for Scab that I recommended it to several of my neighbours who have all proved it equally good.

Yours truly

## ON 'CHANGE.

May 24th, 1884

| | |
|---|---|
| National Bank Shares | 148¼ |
| Scrip | 60 |

National Bank Shares continue to revive, and the feeling in the market this morning was firmer even than last night. Although the King sold the market did not decline as heavy buyers entered the ring. But from some cause or another there appears to be little steadiness in the stock, and bullish though the market be, the bearish influences are still felt. Operations ruled very active to-day and about 5,000 shares were sold for the end of the month; the market opened at 148, went up ¼, fell to 147⅞ and closed firm at 148¼. Operations for June embraced 1,450 shares; rates opened at 150¼, fell to 149½ and closed at the opening rate.

Operations in Bank Scrip are few and far between. Fifty Certificates changed hands for cash at 60. There were numerous buyers at 59½, but no sellers. There is an utter standstill in the Scrip.

Operations in Cedulas were limited to the sale of 1,500 Series F at 85½. The speculation is now quite effete and the little life that lingered in Series E has completely disappeared. There were sellers of Series E at 89¼, but no buyers. The stagnation in the speculation is extraordinary.

Few operations were reported in exchange circles this morning. The market has been swept and bills are scarce. Exchange on Montevideo ruled very hard at 2½ o/o, few drawers. The stringency of the Montevidean money market is drawing attention; the critical state of the Rio Janeiro market is affecting Montevideo.

Mr. Richard Gowland was welcomed on 'Change to-day on his return from Bahia Blanca. He returns charmed with the River Plate Liverpool and staggered at its advance. Bales continue to be shipped at the provisional mole of the railway.

Seven leagues of land situated in the IXth Section of National lands have been sold at $3,000 per league. Names of buyer and seller kept under reserve.

The money market continues very easy and discounts are now quoted at lower rates; current rates are 6½-7 o/o. There is a plethora of money in the market, but it does not come on the Bolsa. One or two Bolsa brokers are, nevertheless, carrying on a very profitable business by lending at high interest from one month to another.

Mr. James Brett, the well-known manager of the Curumalan principality, arrived yesterday. Everything in the principality is thriving and mares, cattle and sheep are in splendid condition.

The sailing of the French packet was the great business of the day; she takes a crowd of passengers and a hevay exchange mail. Some parties left by the evening river boat to catch her in Montevideo.

The river steamers are doing a roaring business. The growth of the passenger traffic between this city, Rosario and Santa Fé is extraordinary. Steamer agents state that every trip they are obliged to refuse scores of passengers from Rosario. The Rosario Railway can rely on a splendid passenger traffic.

The following were the sales at the ring during official hours:—

Cedulas—
For cash F 1,500 at 85½
National Bank Shares—
For May 31st 4,650 at 148-⅛-¼-⅛-148-147⅞ to 148-⅛-148-¼
For June 30th 1,450 at 150¼-150-149½-150-¼ to 150
Sales, 6,100
National Bank Certificates, 30 o/o paid—
For May 26th 50 at $60

What with freights at fs.8 per bale, exchange at par and better advices from Europe the wool market has ruled active during the week. Sales have been important, considering the advanced stage of the season, in deposit, barracas and in the stations. Those who deposited their wools have become convinced of the folly of keeping their stock stored up, and, in view of the large arrivals of wool from the camp districts, have begun to sell at reasonable prices, within the limits fixed by European orders. Although advices from Europe announce no rise they state that a firmer tone prevails in the wool markets of Havre, Antwerp and North of France; thus we may say that prices have touched bottom this year and that the market is on the eve of a reaction. These many favorable causes, on one hand, and the determination of holders to sell on the other hand, have led to some activity in the market. About 200,000 @ of wool were sold during the week in deposit and in the stations. The prices paid for wools in deposit shew a fall of 20-25% per @ compared with the prices offered for these wools when sent to deposit at the beginning of the season. The men who sent their wool to deposit this year have lost, and the losses of this season will no doubt prove a healthy lesson for the future. The "acopiadores" and speculators outside can derive much experience from these losses. Some splendid lots which were sent to deposit after refusal of offers ranging between 114 and 118 m/c. per arr. have been sold this week at 90 to 100 m/c. per arr. Calculating loss of interest, expenses and fall in price, the loss sustained cannot be under 25 o/o.

Advices received from Europe these last two days state that wool operations effected at the prices of these last two months will leave a profit; but shipments of wool at the beginning of the season when good wools were selling at 5.50 to 6 frcs. left losses. These wools are now selling at 5 frcs. Those who kept aloof at the beginning have seized a fair opportunity of operating now. The market of late has been more favorable to the shippers and buyers of wool, as both freight and exchange are in favor of the purchaser.

Although the opinion of the market is that there is not much wool left in the camp, the large arrivals this week in the South Plaza point to the contrary. Fifteen thousand arr. of wool entered the South Plaza to-day; there are about 200,000 arr. yet left in deposit. If the fine weather continues the market may look forward to steady arrivals up to the end of June, especially from the distant partidos.

One of the chief features of the close of the wool season is the excellent quality of the wools left in the market and arriving from the camp. Contrary to the routine of former years, the bad wools moved off faster this season, and it seems incredible; but the fact is corroborated that the bulk of the wools left this year for the so-called "arrière saison" is of excellent quality. Splendid lots of wool are pouring into the market from Azul, Olavarria and other parts. In one of the private deposits there are 30,000 arrobes of fine wool. The owner would not sell and will not let go, in hopes of obtaining higher prices

The prices paid in the wool market to-day were 90 to 95% for special qualities, 80 to 88 % for good ones, 75 to 82 m/c for middling kinds and 60 to 75 m/c per arr. for inferior qualities. Some bad wools have been sold as low as 55 m/c per arr.

On a former occasion it was stated in these columns that if the weather continued fair the maize crop would be very large and the market would fall heavily in consequence. The arrivals this week have been so heavy that the wool shed is full of the grain, and thousands of bags are left outside where the maize suffers from exposure to the air. The 'morocho' quality has fallen 48$ m/c per fanega this week, and yellow superior kinds have dropped 40 and 42 m/c per fanega. Middling qualities were sold to-day at 35 m/c per fan. The export of the grain is small; some exporters, it is said, would pay 48 m/c per fan. with bag placed on board, but no operation reported.

Costa wheat is rising steadily owing to the steady demand in the market for local consumption. A fine lot in deposit has been sold at 110% per fanega; 100% is currently quoted in the markets. French wheat is becoming scarce and is quoted at 95%. Middling and inferior kinds of wheat are abundant, but there are few buyers and prices are nominal. Several firms of this market have engaged cargoes in Rosario and Santa Fe. Ninety paper dollars per fanega on board is the export rate. Advices from Europe prognosticate a large harvest; this naturally will tell against the production in this country.

Linseed is in great demand for seed. The plantations this year are much larger than last season, and an immense harvest is anticipated not only in this province but also in Santa Fe.

On receipt of unfavorable news from Europe sheepskins dropped at the beginning of the week one real, but in the last few days the market has assumed a firmer aspect, and the article is in demand at the old prices.

Four thousand capones from the great Gorostiaga estancia, have been sold at 60 m/c per head. These animals are of Rambouillet breed and will be Haslamized for export to Europe.

It was rumored to-day that a cablegram had been received from London confirming the previous favorable advices about wool and announcing a firm tendency in prices. It appears that a very heavy consumption of wool is at present going on in Europe.

Seven leagues of land, 12 leagues West of Trenquelauquen, near the Vth Meridian, have been sold at 7,500 $m/n.

Mr. Lopez Lecube has rented four leagues of land, situated in the IIIrd Provincial Section South West of Fuerte Argentino, at the rate of $25,000 % per league This is the highest rent paid as yet in that vicinity. Mr. Lecube has also rented four leagues alongside at $20,000 m/c per league per annum. It appears that the railway has put a great spurt into lands down South; the influence is felt even in the IVth Section, where Mr. Cambaceres, Bernasconi and others have rented many leagues of land at 10,000 and $15,000 currency per league.

About 2000 shares were sold during afterhours; the market fell from 148½ to 147½, closing price for the end of the month. Ten thousand Series F were sold at 85½. The market closed weak.

From the Plaza Once de Setiembre we have the following:—

The works of the Pacific Railway are being pushed ahead with great activity. In the Mercedes section (Buenos Aires) the laying of the rails was finished as far as Junin on the 13th instant, and on the same evening a locomotive arrived at the above place. The work of putting up the stations, &c. has been somewhat backward, owing to the scarcity of waggons to convey the materials on the Western line. The number of waggons which the Pacific line had at its disposal to carry the materials has been greatly decreased, and the consequence is that cement, bricks, sand, lime, &c. have all run short. The permanent bridges on the Rio Lujan and the Arroyos Las Pulgas, Moyanos and Leones are now finished; and those at Las Toscas and kilometers 69.500 and 76.500 are well advanced. For the remainder of the way as far as Junin provisional wooden bridges have been put up. The permanent culverts from Mercedes to kilometer 61 are finished and provisional ones have been put up as far as Junin. There are nine stations between Mercedes and Junin:—Mercedes, Franklin, General Rivas, Castillo, Rawson, San Patricio, Chacabuco, Higgins and Junin. The stations Franklin and General Rivas are now finished, and the remainder are well advanced. During the months of April and May there were only 380 tons of materials despatched from Rosario, of which there were 26 tons for provisional wooden bridges, and the whole of the remainder has not even yet arrived, being detained at the stations Villa Maria and Velez Sarsfield for want of waggons. With the exception of 13 waggons belonging to the Central, all the waggons used belonged to the Pacific Railway. To have a quicker despatch of the materials lying in Rosario the Pacific Railway have placed at the disposal of the Central Argentine Railway two locomotives on condition that said line convey not less than 500 tons of rails, sleepers, &c, per month. Mr. Fisher, the manager of the Company, is doing all in his power to facilitate the despatching of the materials. In the meantime the contractors Messrs. Sanchez & Malmen, owing to these difficulties, have sent their bullock troops 'across camp' in order to get some of the materials, which at present prevent them from pushing ahead their works.

The following important telegram has been received from Antwerp, under date May 23rd: "B. Aires wools of 30 o/o rendiment are quoted as follows:—
"Superior quality, f.1.55 per kilo.
"Middling qualities, f.1.40-45
"Secondary do, f.1.35.
"Good lambs' wool, f.1.37½
"Stock of all kinds of R. Plate wools, 30 to 31,000 bales.
"Hides—
"Dry mat. ox hides, 29-30 lb Spanish weight, f.1.36-1.40 per 50 kilos.
"Salted mat. ox hides, 20-25 kilos, f.71-74 do
"Total stock, 70,000-80,000 R. Plate hides.
"Exchange on London, 3 months sight, at fs.25.25-25.26 per £ sterling."

The finances of the Provincial Governments of the country are the nebulae that have resisted the strongest glasses in the market. Whenever a provincial finance report puts in an appearance it is greeted with a smile and put aside; Buenos Aires, perhaps, forms the only exception. It may, nevertheless, interest the market that the Santa Fé Government is seriously engaged in a study of the finances of the Province and hopes soon to shunt the backward system of the present into a normal financial groove. Thus the Governor in his message begins with the favorite topic of taxation; there is not even a hint at any reduction of same, but he candidly admits that the contributions might be increased by a more perfect mode of collecting the taxes. The revenue of Santa Fé for 1883 was calculated at $954,000; the following is a list of the Ways and Means:—

| | |
|---|---|
| Receptorias | $107,425 |
| Revenue | 629,828 |
| Prov. Bank in account current | 217,188 |
| | 954,741 |

The expenditure was:—

| | |
|---|---|
| Budget | $879,27[illegible] |
| Extraordinary | 102,403 |
| Bills due | 96,342 |
| Interests | 13,346 |
| Difference exchange. | 8,525 |
| Old debts | 208,747 |
| Special orders | 8,524 |
| Default of Carbonell | 13,410 |
| Judicial deposits | 2,452 |
| | 1,333,020 |

Deducting from the above the balance left in the Receptorias of 122,317, we see that the deficit amounts to about $250,000. The deficit is occasioned by the old debts that had to be paid in 1883. At all events the financial management of Santa Fé is very far indeed from being regular or methodized. On another occasion we will refer to the public debt of the Province.

To the 66 colonies at present established in Santa Fé 14 more will be added this year. These fourteen new colonies have been measured already and colonists have taken possession of many of the concessions. The population of the colonies is calculated at 63,000 souls; it is estimated that each family in the colonies represents a capital of $4,000. The colonists exported over 20,000 tons of wheat last year, and the production is increasing steadily. The Santa Fé Railway, it is thought, will double the production in three years, owing to the great facilities which will be offered for the conveyance of produce. The plantations of linseed, peanuts and other grains have much increased; the farmers have not had the very prosperous results which they anticipated, owing to the crisis in the wheat market.

The President of the Board of City Improvement Works has applied to the Finance-office for $400,000 to continue the works. The demands on the Treasury at present are very heavy.

Three thousand capones are reported sold from Mr. Subiaurre's estancia in the South at the high price of 59% per head. These must be picked animals out of large flocks. These animals were bought for matadero.

Messrs. Niel, Goñi & Co. will only run their diligences from Bahia Blanca to Patagones at the end of next month. The post houses on the road are not yet put up, but one of the concessionaire left yesterday for Bahia Blanca to finish preparations for a monthly service.

The Villarino arrived in Patagones the day before yesterday. Commander Spurr has telegraphed to the Navy-office for orders to come up. The transport may be expected in the beginning of next week.

**TIJUCA**

Rio de Janeiro.

WHYTE'S HOTEL, Tijuca, having been leased to M. Lafourcade of the Hotel dos Estrangeiros, Rio de Janeiro, the late manager (gerente) of Whyte's Hotel, Mrs. Charles, has with her husband taken the former "Hotel Victoria," Boa-Vista, and will re-open it on the 15th January 1884 as CHARLES' ENGLISH HOTEL.

It is situated close to the Green or Square called "Boa-Vista" on the very summit of the pass leading from Rio to Whyte's Hotel. It is a most salubrious position in the midst of beautiful mountain and forest scenery, has a bath with a plentiful water supply, very extensive grounds and is within five minutes walk of the fine waterfall Cascatinha in the forest of Tijuca.

Diligences to and from the termination of the Tramway (bond) pass the entrance to the Hotel twenty times a day.

It will be Mr and Mrs Charles' endeavour to give satisfaction to all who may honour them with their custom.

## BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazos.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum, de las que emite el Establecimiento.

## A Derangement of the Liver.

THE CAUSE OF DISEASE

IN THE

STOMACH, KIDNEYS, AND Nervous System.

Below will be found a brief summary of a Lecture upon the Liver, delivered before the Eclectic College of Medecine, by

Dr. J. Haydock

The Liver has been known as the great blood-maker and blood-purifier of the circulation. From its size and spongy structure, it plays a most important part in the animal economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs of the stomach is converted into Glucose and Peptone, and in these forms enters the Portal vein. Here, by the action of the liver, these substances are converted into a form of sugar and pass out of the liver by a large vein, called the Hepatic vain, into the great circulation. The new material now formed serves two purposes: viz: the maintenance of heat in the body and assisting in the cell growth of the system.

Dr. Murchison says "The composition of bile and its secretion is very complex. It is constantly being secreted by the liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, if this most important organ of the body becomes torpid, or the passage of bile interfered with, emaciation and disease ensue. I note eight marked peculiarities that now occur, and which we all know of:—

1. The patient complains of a feeling of weight and fulness of the stomach.
2. Distension of the bowels by wind.
3. Heartburn.
4. A feeling of weariness, pains in the limbs and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with an occasional attack of diarrhœa.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition to leave everything for to-morrow.

All of the above symptoms go to show functional derangement of the liver; and now comes the great importance of any error made as to the condition of the patient. He should immediately provide himself with a Liver Stimulant, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounded properly, is the readiest mode of inciting and promoting the action of the Liver, and can be almost always relied on. I have devoted many years of my life, as many of you now before me know, to compounding a Pill that will act readily and systematically as a Bilious remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

## Dr. Haydock's New Liver Pill

(SUGAR COATED)

One Pill is a Dose! One Pill is a Dose!

For all Diseases of the Kidneys, Retention of the Urine, Dr. Haydock's New Liver Pills are a perfect cure. One Pill will satisfy the most skeptical.

For Female Diseases, Nervous Prostration, Weakness, General Lassitude, Want of Appetite and Sick Headache, Dr. Haydock's New Liver Pills, will be found an Effectual Remedy.

They are universal in their effects, and a cure can almost always be guaranteed.

Each vial contains Twenty Pills. One Pill is a Dose. Price Twenty-five cents.

For sale by all Druggists.

Every Pill is Sugar-Coated. If your druggist does not keep them, we will mail them free to any address on receipt of 25 cents. Five vials for $1.00. Buy at once. Do not Deal.

CAUTION—To secure the genuine Haydock's Pills, observe that the signature of J. H. Francis, Agent for the United States, is written on every dozen package. Purchase none without this.

As Dr. Haydock's Liver Pills are entirely different from the 212 kinds now in the market any skeptic can have a sample bottle sent him free on receipt of his name and address.

## EDITOR'S TABLE

(Continued from 1st page)

A Bill for dealing with Scab in sheep has been laid before the Provincial Chambers. It is about time to grapple officially with this plague.

There was another "wonderful sunset" on Thursday, and we suppose it means another deluge of rain. Estancieros in the South should get their own canoes and paddles ready.

A new Zarzuela company, to be composed of the very best talent and to produce the best works in this line, is about to be formed by some capitalists in this city and Montevideo. The artists, of course, will be all engaged in Spain. The enterprise is bound to be a success, as this species of representation is exceedingly popular in the Plate.

Mess. Portalis Hnos y Carbonnier have got the contract to supply material for the Central Northern railway extension works.

Dr. Gil, ex-Governor of San Juan, has been named by the legislature of that province to fill the post of Senator to Congress left vacant by Senator Gomez's deplorable fate. Mr. Sarmiento's pretensions, it would seem, were without the least foundation.

The Minister of the Interior will ask Congress for a money grant to aid the Agricultural Exposition in Santiago del Estero.

Mr. Ansaldi, the eminent photographer in Plaza Victoria, has favoured us with a splendid series of views taken by him since the 15th inst, showing the gradual transformation that our go-ahead Lord Mayor has effected. We recommend an early call on Mr. A., as the demand for these photographs is already very stiff.

The furniture of Lamothe's chalet at the Tigre was sold by auction on Sunday. Some two hundred people went out by the first train, thinking they were going to buy something "muy lujoso" for half nothing. They were "sold" however; the Lares and Penates of the fallen "masher" were of the poorest, and only fetched a small sum, say a couple of thousand Nats. for the whole lot, from kitchen to garret.

We are sorry to hear that the recent death of his son has had a serious effect on the health of Dr. Rawson, whose condition inspires great anxiety amongst his friends.

There was a rumour yesterday that Alderman Otto Recke had resigned the Presidency of the Municipal Board. He cannot resign that post, as it is not his, any more than the Intendencia it Dr. Larreque's. Both gentlemen are purely self-elected.

More of them! Yesterday no fewer than 23 "jovenes" were admitted to the Bar. So many more recruits for the great army of the Briefless. So long as young Argentines continue their fatal penchant for the title of "Doctor", so long will they live to repent it. This is the finest soil on earth, yet its sons disdain to wring its wealth from it, and leave the glorious task to the foreigner.

A tale is told in London of a drapers' assistant who was in the habit, with his master's cognisance, of attending a workmen's Socialistic meeting. Last month the young man neglected for a week or two to attend the meetings, and the following dialogue took place between master and man—Master: "Well John, and how is it that you have not kept up your attendance at the Socialistic meetings?" John (rather confusedly): "Well, sir, I don't think I shall go any more." Master: "But how is that, John?" John: "I have found out, sir, that the scheme is not quite so fair as I thought it was. At the last meeting I attended we calculated how much there would be for everyone when everything was divided up, and we found it would only be £105 each, and you know, sir, I have £150 in the bank."

The generosity of the public may be stimulated in a variety of ways. For instance there is in Paris a blind beggar who wears on his breast a board with the inscription: "Don't be ashamed to put as little as a halfpenny in the box; I can't see you know!" the public see this, laugh at it, and the man does a good business.

### ACROSS THE PAMPAS AND THE ANDES

By Robert Crawford, Esq. (with maps and illustrations.) Longman, Hurst and Co., London.

The task of Mr. Crawford, in connection with this interesting volume, has not been an easy one, as he himself, in his preface thus describes it, after having finally (and only last autumn) decided to publish his past experiences: "I had then to recast a deal of my work, so as to bring my information down to the present time. I was also strongly urged to enlarge its scope, and to utilise my intimate knowledge of the country, acquired during a residence there of two periods of three years each, in charge of various public works, by adding an appendix on the Argentine railway and colonies."

Any one conversant with the changing panorama of those countries during the last twenty or thirty years, can readily understand the position. Mr Crawford commenced his railway experience in South America under favourable auspices, in the service of eminent engineers and contractors, of whom he speaks in well-merited terms, but the onward movement of railways was in its infancy when he entered the field, and he has lived to see it take a great development, which is chiefly recorded in his appendix, itself forming an epitome of railways in the Argentine Republic to the present time, most valuable to the numerous investors in that direction, and most impartially as well as diligently compiled.

In this first glance over Mr. Crawford's book we can only express the favourable opinion we entertain of his labours, and as we proceed in our perusal of the contents, we shall no doubt be able to bring out those more salient points that bear upon his narrative, one accompanied with considerable personal risk and hard work, such as the pioneers of railways have had to undergo. The book does credit both to the writer and to the publishers.—*South American Journal.*

Los Trenes marcados asi (v) pararán en las Estaciones Alegre y Bonnement cuando haya pasageros.

Los Pasageros del tren de Buenos Aires á Bahia Blanca podrán almorzar en Las Flores y comer en La Gama, y [illegible] del tren de regreso almorzaran en las Flores.

Los pasageros del tren de Buenos Aires al Tandil, podrán almorzar en Chascomús; y de regreso en Dolores.

La Compañia de Tramways "Ciudad de Buenos Aires," tendrán coches á la llegada y salida de cada tren, que facilitarán el movimiento entre la Estacion Plaza Constitucion y todas partes de la Ciudad por su sistema de Tramway.

Los Boletos solo servirán para el tren para el cual son espendidos, y son intransferibles.

Los Pasajeros de las Estaciones entre Barracas al Norte y San Vicente que quieran viajar en el tren para el Azul y Bahia Blanca y los del tren para Tandil tendrán que irse en los trenes anteriores hasta San Vicente.

Los Pasajeros para las Estaciones entre San Vicente y Barracas al Norte, por el tren que viene de Bahia Blanca y Azul y los del tren del Tandil, tendrán que bajarse en San Vicente, para esperar trenes locales.

## Pildoras Holloway.

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen afligir a las Mugeres al llegar estas a la edad critica.

Unguente Holloway.

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo orijen no conviena mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguento Holloway, al que millares deben la salvacion, tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533 Oxford Street, London; pues si no esta, entonces se trata de perpetrar un descarado engaño.

☞ Se invitan a las personas que sean defraudadas por los vendedores que expenden 'Las Pildoras y el Ungento de Holloway' falsificadas para que se sirvan al comunicarme los pormenores, e inmediatamente para formalizar procesos legales contra los Ofensores, y recompensare liberalmente a los Delatores por el trabajo que se tomen, comprometiendome a que no haya trascendencia de sus nombres.

## Dysentery, Cholera Fever, Ague Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Crup. Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.
